Dear [member\_name\_first]:

The year 2010 may well be the *BIG ONE* for getting lasting protection for the North Fork of the Flathead River. *Can we count on you to ask your friends to join us in this effort to protect our river jewel?*

The North Fork needs people like you - and your friends - to speak for it. So it's important that your friends participate along with you in the effort to protect it.

All you have to do is forward this message to your friends and add a personal message asking them to SIGN UP!

Have your friends click on this link:

<https://app.e2ma.net/app/view:Join/signupId:1400851/acctId:36782> that will take them to our on-line sign-up page.

It's as easy as that and takes just a minute!

You know that coal and gold mining and coalbed methane (CBM) development upstream in British Columbia threaten the North Fork River and the Waterton-Glacier Peace Park.

Well, Headwaters Montana and the coalition of Canadian and U.S. groups working to protect our

Columbia  
mountain-top coal  
strip mine just north of  
the Flathead. The  
British Columbia  
government has been  
promoting the  
industrialization of the  
Canadian Flathead  
valley. Coal and gold  
mining and coalbed  
methane (CBM)  
proposals are under  
review.*

*The Transboundary Flathead still harbors all the wildlife species that lived here at the time of Lewis and Clark. Let's keep it that way!*

*People love the Transboundary Flathead. Here a shot of some of the folks working to Keep It Wild!*

outdoor heritage have made big progress this year. We think the debate is shifting to solutions.

Help protect the river and park that you love. Please contact your friends. Encourage them to sign up. Together we can build a strong voice for the North Fork and Glacier at this critical point in time.

Enjoy the rest of your summer and...

Keep It Wild!
